The Library has received the two paintings promised by Col. Spalding on behalf of the Makee estate. One is of President Lincoln, the other of Chief Justice Lee. The institution's attractions are materially increased by this gift, and its friends might gradually make its art treasures bear some relation to its literary wealth.

Mr. J. Ena, Secretary of the Inter-Island Steam Navigation Company, has by direction of Captain Godfrey, Vice President, written a note to Mr. D. Dayton, Deputy Marshal, stating that the fire on the W. G. Hall is believed to have been accidental, and that an inquest would not be of any use.

The Chinese Club House is up a story, Mr. Mayhew being fortunate in having the services of Messrs. Hank Dopson and John Lloyd as foremen. It is going to be, like its short-lived predecessor, one of the handsomest buildings in the city. Pressed brick has been ordered from Philadelphia for the front, that will be an ornament to King street.

The admiralty case continued before the Chief Justice yesterday. Six more witnesses for the libellants were examined, their testimony being about to the same effect as that of the three on the stand Monday. A Tangible Recognition.

The Inter-Island Steam Navigation Company has, through Mr. J. Ena, Secretary, presented the Fire Department, through Mr. C. B. Wilson, with five hundred dollars in gold coin, as "only a slight acknowledgment of the valuable services rendered" in quenching the fire in the steamship W. G. Hall. Mr. Wilson in acknowledging the gift, on behalf of the Department, says he "will ever hold in grateful remembrance this first public and tangible appreciation of the desire on the part of every officer and member of the Department to respond when duty calls."

The Hoffman Failure.

The San Francisco creditors of Hoffman & Co. have made attachments on the assets, to tune of between \$270,000 and \$180,000, owing to the assignee, Gustav Friederich, having failed to qualify himself. In consequence the sheriff has taken charge of the store in Battery street, in place of the assignee. A newspaper of that city says it is expected that what has been done will surprise the Eastern creditors.

The Louisiana Orange Crop a Failure

NEW ORLEANS, Sept. 24.—The Louisiana orange crop is usually marketed about this season. Reports from Calicarron, St. Bernard, St. Mary, Cameron, Lafourche, and other parishes in which the orange is principally grown, show that the crop is a complete failure this year. It usually averages from 30,000,000 to 50,000,000 a year, but will not be 1,000,000 this year in consequence of the severe freeze last winter. The news is uniformly bad from every portion of the State. On some places where 500 barrels were obtained last year barely a barrel will be secured. Last winter's freeze has done terrible damage, killing the limbs and requiring the cutting off of so much dead wood as to almost destroy the trees. There is absolutely no crop in consequence. None of the trees are bearing. Occasionally an isolated orange can be found on a tree, but that is all. The big plantations are no better off, and suffer as severely as the small groves. The worst of the matter is that the trees are so badly injured that it will take nine years of propitious weather before the crop will be a full one again. It will be but little better next year, only a partial production the year following, and if nothing happens to prevent the third year ought to see a good crop. A large proportion of the Louisiana crop was shipped to Chicago, Cincinnati and other Western cities, but there were not enough raised this season for home consumption, and New Orleans will be compelled to depend on California and Florida.—Special to Chicago Times.

There is a deep and nasty puddle in the sidewalk near the Police Station. It would not cost as much to bail it out and fill it up, as it does to fill a man up and bail him out of the Station.

A Handy Man About a Church.

A correspondent who passed his vacation in a New Hampshire town says he went early to church one Sunday and found the janitor or sexton busily at work sweeping and dusting. He took a seat in one of the pews and soon the congregation came in, making about a hundred present at the hour for service. When the sexton had finished tolling the bell he walked into the pulpit and said the pastor was away on vacation, and hence an extra duty devolved on him, and without further apology or explanation the sexton proceeded with the service, conducting it to the evident satisfaction of the entire congregation.—Salem Register.
